Authorization for this examiner's amendment was given in a telephone interview with Francis E. Morris, Registration No. 24,615 on 1/28/2010.

The application has been amended as follows:

Claim 1. (Currently amended) A method of filtering time series financial data comprising the steps of:

testing said data for decimal error;

testing said data for scaling error;

testing said data for domain error;

testing for credibility of said data that passes the tests for decimal error, scaling error and domain error by comparing nearby data in the time series; and

rejecting by a computer an item of data that fails the testing for decimal error, scaling error, domain error and credibility.

Claim 11. (Currently amended) A method of filtering a time series of quotes comprising the steps of:

testing said quotes for decimal error,

testing for credibility of said quotes by comparing nearby quotes in the time series,

rejecting by a computer a quote that fails the tests for decimal error and credibility [[.]] .

testing if a ratio of a new quote and a previous quote lies within a predetermined range; and

if the ratio does not lie within the predetermined range, changing the ratio by a power of ten until the changed ratio lies within the predetermined range.

Claim 29. (Currently amended) A method of filtering time series financial data comprising:

assigning a numerical value of a credibility measure to each datum in a time series of quotes or transaction prices of financial instruments, and

filtering out with a computer those data in the time series of quotes or transaction prices for which the assigned numerical value does not meet a predetermined value.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 1-22, 24-37 are considered allowable since when reading the claims in light of the specification, as per MPEP § 2111.01, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claims 1, 11, and 29 including testing for credibility of said data that passes

testing if a ratio of a new quote and a previous quote lies within a predetermined range; and if the ratio does not lie within the predetermined range, changing the ratio by a power of ten until the changed ratio lies within the predetermined range; and assigning a numerical value of a credibility measure to each datum in a time series of quotes or transaction prices of financial instruments, and filtering out with a computer those data in the time series of quotes or transaction prices for which the assigned numerical value does not meet a predetermined value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
